(If Yes please check box) <input checked="" type="checkbox"/> X This is an existing budget saving proposal being reviewed (If Yes please check box) <input type="checkbox"/>
2. Please give details of the Lead Officer and the group responsible for considering the Equality Impact Assessment (EQIA)	Morgan Low, Senior Planning Officer AHSCP Strategic Planning Group.
3. Please give a brief description of the policy, procedure, strategy or practice being assessed, including its aims and objectives, actions and processes.	The Equality Act (2010) places a duty on Public Bodies to publish a set of equality outcomes every 4 years and produce a report describing how well they are achieving these outcomes at least every 2 years. An Equalities Mainstreaming Report is to be published every 2 years. The timeframe for the updated AHSCP Equalities Mainstreaming report and set of equality outcomes is overdue and an updated mainstreaming report and set of equality outcomes have been developed.
4. What are the intended outcomes of this policy, procedure, strategy or practice and who are the intended beneficiaries?	Mainstreaming equality means integrating equality into the day-to-day working of the AHSCP. This means taking equality into account in the way we exercise our functions. Equality should be a component of everything we do. The benefits of mainstreaming equality are: <input type="checkbox"/> Equality becomes part of the structures, behaviours and culture of the organisation. <input type="checkbox"/> AHSCP knows and can

	<p>demonstrate how, in carrying out its functions, it is promoting equality.</p> <p>□ It contributes to continuous improvement, better performance and better value.</p> <p>AHSCP is responsible for mainstreaming and integrating equality into day-to-day activities as well as strategies etc. Equality and diversity will be embedded into our delivery of person-centred outcomes. We are also committed to integrating equality into our business tools such as Equality Impact Assessments (EIAs) which is a combined template with our Fairer Scotland Duty Assessments (FSD). We will ensure equality is explicit and proportionate in business planning and decision-making including gathering and analysing the population data of Angus.</p> <p>We will continue to ensure that employees continue to undertake training in equalities awareness, in EIAs, and access equalities courses offered by their employers.</p> <p>Equality Outcomes are results which we aim to achieve in order to further one or more of the needs in the general duty, that is to: eliminate discrimination, advance equality of opportunity and/or foster good relations. By focusing on outcomes rather than objectives or outputs, we aim to bring practical improvements in the lives of those experiencing unlawful discrimination and disadvantage.</p> <p>AHSCP is responsible for setting and delivering on our Equality Outcomes. These outcomes are aligned to our strategic plan, with specific equalities perspectives, and identify to which National Outcomes they relate. We have also used census data which informed our understanding of Angus demographics in order to ensure that resources and services are delivered effectively; that the Equality Outcomes meet the needs of the changing population and take account of the impact of deprivation in our communities.</p> <p>The refreshed equalities mainstreaming report and equality outcomes detail how we will do this. The intended beneficiaries are the supported people that receive input from our services, our workforce and the residents of Angus.</p>
5. Has any local consultation, improvement or	Research has been conducted around

research with protected characteristic communities informed the policy, procedure, strategy or practice being EQIA assessed here?

If Yes, please give details.

understanding the changing demographic population in relation to protected characteristic groups in Angus. Understanding the demographics of Angus is essential to ensuring that resources and services are delivered effectively and proportionately to the level of need and risk; that they meet the needs of the changing population and consider the impact of protected characteristics on equal opportunities and health inequalities. This has included the following:

- Age and Sex
- Ethnicity
- Life Expectancy
- Disability
- Religion
- Sexual Orientation
- Carers of Older and Disabled People
- Deprivation

Our Equality Outcomes have been identified as a result of our continuous conversation approach to engagement and involvement as well as our revised Joint Strategic Needs Assessment and Equalities Evidence Base which led to the development of our current strategic plan. Engaging with communities, people who use services, carers, staff, providers and the third and independent sectors is essential if we are to deliver the best services for Angus. Engagement and Involvement has been and will continue to be an ongoing activity. It serves to ensure that we understand our localities, and that we are working in the right direction with consensus. We will therefore ensure that equality monitoring is an integral part of our activities to allow us routinely assess their accessibility and the status of equal opportunities in Angus.

Examples of engagement areas of activity include:

- Localities
- Independent Review of Nursing and Peer Worker Role
- Co-Morbidity Pathway
- Angus Integrated Drug and Alcohol Service
- Suicide Prevention
- Public engagement to inform Strategic Commissioning Plan
- Staff, service users and families all contributed to a comprehensive review of overnight support.
- Review of Supported Housing (Older People)

	<ul style="list-style-type: none"> • Carers conversation to inform Angus Carers Strategy • Participatory Budgeting Events in all four localities. • Establishment of new Angus Mental Health and Wellbeing Network • Stroke MCN • COVID-19 Staff Survey • Learning and Physical Disability Improvement Plans • Health Care Tasks in Community Settings • Workforce Plan • Internal Care Home Review • Angus Living Life Well Plan • Local Scottish Care Integration Lead
<p>6. Fairer Scotland duties:</p> <p>1) Does this report have an impact for Angus citizens under Fairer Scotland?</p> <p>2) If Yes, what are these implications and how will they be addressed?</p> <p>What evidence do you have about any socio-economic disadvantage/inequalities of outcome in relation to this strategic issue?</p>	<p>The Fairer Scotland Duty (the Duty) came into force on 1 April 2018 and places a legal responsibility on named public bodies in Scotland to actively consider ('pay due regard' to) how they can reduce inequalities of outcome caused by socio-economic disadvantage, when making strategic decisions. The Fairer Scotland Duty means we should actively consider how we can reduce inequalities of outcome caused by socioeconomic disadvantage in Angus. The Equalities Mainstreaming report and Equality Outcomes details how we will do this. It therefore does not impact on Angus Citizens under Fairer Scotland – it is particularly focussed on supporting our obligations under Fairer Scotland Duty with a particular focus on advancing equality of opportunity, foster good relations, and eliminating discrimination in relation to all of the protected characteristics in the equalities act.</p> <p>We know that the communities in Arbroath experience challenges associated with deprivation although there are pockets of deprivation throughout Angus. This is particularly associated with inequality in these communities around income, employment and health. We will continue to provide funding to the third sector to improve the range of activities available for people from protected equality groups in the Angus community.</p> <p>We will focus on the development of early intervention and prevention services.</p> <p>We will continue to support community initiatives within Angus Locality Improvement groups.</p> <p>We will drive participation with equalities led</p>

<p>Are there any potential impacts this strategy may have specifically on the undernoted groupings? Please remember to take into account any particular impact resulting from Covid-19. Please state if there is a potentially positive, negative, neutral or unknown impact for each grouping.</p> <ol style="list-style-type: none"> 1. Low and/or No Wealth (e.g. those with enough money to meet basic living costs and pay bills but have no savings to deal with any unexpected spends and no provision for the future. 2. Material Deprivation (i.e. those unable to access basic goods and services e.g. repair/replace broken electrical goods, warm home, leisure and hobbies 3. Impact Area Deprivation (i.e. where people live (e.g. rural areas), or where they work (e.g. accessibility of transport). 4. Impact Socio-economic Background i.e. social class including parents' education, people's employment and income 	<p>groups. Offer additional equalities training to staff and IJB board members. Actively participate in NHS Tayside and Angus Council equalities and diversity governance and outcome implementation groups and as employers of AHSCP staff. Develop an AHSCP Equalities Outcomes Monitoring Group with membership to include staff, service user and carers reps. We will continue to improve the range of telehealth and telecare services available in Angus We will proceed with actions identified through the Physical and Learning Disability Improvement Plans We will deliver the Angus Care Model We will progress with the redesign of the Stoke Rehabilitation Pathway to support the development of home/community-based rehabilitation. We will undertake a mapping exercise to identify marginalised and under-represented groups in Angus. We will also Ensure processes are in place which welcome, encourage and support service users and carers to inform decision-making. Continue to promote accessible communications by using translation and interpretation services. Offer additional equalities training to AHSCP staff.</p> <p>This report and set of equalities outcomes should have a positive effect on each of the below groupings, as per the information in the above narrative.</p> <p>As above. Where there is the potential for service users, carers or family members to have to travel further to access service or visit loved ones, consideration will be given to ensure that transport isn't a barrier for people joining the workforce, especially in our rural communities and also areas of deprivation. Consideration will also be given to potential travel costs for the public, as that could also be detrimental to those on low incomes or in areas of deprivation.</p> <p>As above.</p>

FULL EQUALITY IMPACT ASSESSMENT (EQIA)

Step 1.

Is there any reason to believe the proposal could affect people differently due to their protected characteristic? Using evidence (e.g. statistics, literature, consultation results, etc.), justify whether yes or no. If yes, specify whether impact is likely to be positive or negative and what actions will be taken to mitigate against the undesired impact of a negative discrimination. When considering impact, please consider impact on: health related behaviour; social environment; physical environment; and access to & quality of services of NHS Tayside, Angus Council or 3rd sector social justice.
